ENGLISH

RS Pro 13.7 x 11.1mm Lever Press Rectangular Punch & Die Combinations

Features:

Rectangular Hole Punching (Hardened Steel)

A range of case hardened steel, rectangular punches and dies to be used with 3000lb lever press having dedicated sizes for panel mounting rocker switches and IEC chassis connectors. Offers the same accurate and clean hole punching capacity as the circular punch and dies. A stripper is not required, a simple re-fitting of the punch renders the press ready for the next hole. Instructions for use are supplied with each punch and die. Suitable die-holder Stock no 541-472.

Specifications:

Hole Shape:	Rectangular
Operation:	Lever Press
Hole Size:	13.7 x 11.1mm
