

IET Standards

CODE OF PRACTICE FOR THE APPLICATION OF LED LIGHTING SYSTEMS

This Code of Practice has been developed to provide confidence to users as a minimum standard for LED lighting systems installation, as well as to serve as a useful reference on the application of LED lighting systems.

- Designed to outline the principles for LEDs and lighting design
- Details best practices for design, installation and systems integration specific to LED lighting that comply with wiring and building regulations
- Includes “myth busting” annexe to inform readers of the true facts connected with LEDs

READERSHIP

Primarily aimed at electrical installers and engineers, as well as lighting industry associations' members and customers.
