RS Pro Centre Finder

ENGLISH

Key Characteristics

| Probes Type | Length |
|---------------|---------------|
| Straight 3off | 35, 90, 144mm |
| Cranked 3off | 35, 90, 144mm |

Product Details

Centring Indicator

- A versatile centring indicator which is ideal for comparative measurement and center finding during machine set-up
- Not to be used for direct measurement due to magnification errors introduced by using different length probe accessories
- Indicator remains stationary during set-up
- Internal or External centring
- Assist with positioning of Spindle in relation to Workpiece
- Range 0-25-0 resolution 0.1
